MADE IN USA

Bakery On Main's audaciously premium gluten free products began in the small bakery of a natural foods market on Main Street in Glastonbury, Connecticut. Founder Michael Smulders listened to his celiac customers talk about the lack of good quality gluten free products available to them. Believing that no one should have to suffer due to any allergy or dietary need, he made it his mission to create fearlessly unique gluten free products that would be good for you and safe for his celiac customers while also being full of great tasting bakeshop delicious flavor for everyone to enjoy!
